

12 x GOLD at the Golden Grape Award 2025 - Tasting packs - New Year's bonus

Dear Winefriends,

We sincerely hope that you had a good and safe start to the New Year and wish you all the best for 2026 – above all, confidence, happiness, and good health. After a rather quiet period in the vineyards during November and December, we started again in January 2026 with the [gentle pruning of wines](#). Meanwhile, things were quite lively in the cellar, as the 2025 wines and the last of the 2024 wines still fermenting (Veldenzer Kirchberg ALTE Reben dry) ended the quiet phase with [gentle bubbling](#). Some of the 2025 wines have already completed fermentation and are resting in barrels on the lees to gain structure, finesse, and complexity. The first bottling is planned for mid-April.

What happens when passion meets perfection?

[--> Twelve gold medals at the Golde Grape Award 2025](#)

At the Golden Grape Award 2025 Riesling competition (part of the new wine competition format from wein.plus), a total of **875 Riesling wines were submitted** by 344 wineries across Germany. Of these, **266 wines received GOLD MEDALS**, and we are proud to say that **we received 12 GOLD MEDALS** for our Rieslings alone in the various tasting groups. This rewards our passion for **first-class wines in which artisanal perfection meets a respectful approach to nature** and no additives such as enzymes, proteins, etc. (except for a little organic sulfur to protect against oxidation and preserve the natural sweetness in the wine) are used. We are very happy that, as a certified organic winery that only cultivates its own steep slopes, we have now succeeded in playing at the top of the league of Germany's leading wineries.

Sample packs
